

# **13<sup>th</sup> International Symposium on Neuropterology**

**17-21 June 2018, Laufen, Germany**

<https://www.neuropterology2018.de>

## **Symposium Participation Awards**

The International Association of Neuropterology will provide two student and two non-student awards to assist with expenses associated with participating in the 13<sup>th</sup> International Symposium of Neuropterology. Each award will be for an amount equivalent to the full registration fee for the symposium (550€ for non-student awards, 350€ for student awards), which will cover expenses for standard accommodations and meals for the full symposium, participation in the Midterm Excursion, and a copy of the published proceedings volume. Awards will be administered by waiving the symposium registration fees of awardees (not through direct grants), thus reducing awardees' overall expenses. Awards will not cover participation in the Post-Symposium Excursion, and cannot be applied to travel costs to and from the symposium or to miscellaneous expenses.

## **Eligibility**

- Awardees must make a presentation (either an oral talk or a poster) on a neuropterological topic at the symposium.
- Applicants must demonstrate and document a need for support to attend the symposium.
- Individuals applying in the student category must be formally enrolled as a student at a university, college, or research institute at the time of application.

## **How to Apply**

- All applicants must submit the following documents to be considered for an award: (1) an abstract of their intended presentation [1 page max], (2) a letter demonstrating and documenting their need for financial support to attend the symposium [1 page max], and (3) a brief resume or curriculum vita [2 pages max].
- Students must also submit a letter certifying student status at the time of application, signed by their major advisor, department head, or a similar official [1 short paragraph max].
- All documents must be submitted in PDF format and be sent, together, as attachments to a short cover e-mail to Michael Ohl ([michael.ohl@mfn-berlin.de](mailto:michael.ohl@mfn-berlin.de)), President, International Association of Neuropterology.
- Application packets received after 15 February 2018 will not be considered for awards.

## **Selection of Award Recipients**

- Awardees will be selected by the governing board of the International Association of Neuropterology.
- Awardees will be selected on the basis of need and the quality and scientific merit of the presentation they intend to present at the symposium, as judged from submitted application materials.
- Awardees will be notified by 23 February 2018.
